Land Rewards.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 429, dated 12th June 1920, from the Secretary, Mysore Soldiers' Board, submitting for orders of Government the marginally noted resolution adopted at the 4th meeting of the Board held on 15th May 1920 in regard to grant of lands to retired Sowar Sakharam Naligay of Imperial Service Lancers.

Read— Resolution No. VIII of the third meeting regarding the prayer of retired Sowar Sakharam Naigay of the Imperial Service Lancers for grant of lands.

Resolved that the case of the retired sowar may be recommended to be treated as a special case and the sowar granted the extent of land admissible under the rules.

Order No. G. 10511-22—Mily. 549-19-2, dated 27th November 1920.

The sowar had put in 7 years of service in the regiment before he went to the field and was invalided home and granted an injury pension. The Chief Commandant, while recommending the case of the sowar to the Soldiers' Board for some relief, has pointed out that the petitioner's case does not fall under the Government Order of 16th July 1918, as the field service rendered by him is less than six months, nor under the Military Settlement Scheme which prescribes long and meritorious service as a condition precedent for such grants. The Soldiers' Board however recommend that the case of the sowar may be treated as a special case and land to the extent otherwise admissible under the rules granted to the applicant.

2. Government approve of the recommendation of the Soldiers' Board and are pleased to sanction as a special case a grant of 1½ acres of wet land or 4 acres of dry land to the retired sowar in question.

3. Taking into consideration the facts that men who were recruited subsequent to 1914 and thereafter and who did a few months of active field service get land rewards, while those who were in the thick of the fight and were wounded and retired before the passing of the Government Order read above are not entitled to this concession, and that no provision has been made for cases of this nature, Government are pleased to direct that the benifit of Government Order, dated 16th July 1918, be extended to men like the present applicant who went to the field and returned before the passing of the Government Order irrespective of the period of service done by them in the field.

Of the total number treated 51 were cured, 27 discharged, improved or otherwise, 20 died and 199 remained under treatment at the close of the year. Of the 297 lunatics treated in the Asylum, 86 were the lunatics of the Civil and Military Station, Bangalore. The expenditure on the Asylum during the year was Rs. 60,553 against Rs. 39,423 in 1918, the increase being due chiefly to increase in rates of the accepted tenders for the supply of articles of diet, etc., and of the average strength of the Asylum population.

12. *Medical Stores.*—The total amount spent on the purchases made by the Stores was Rs. 1,82,616 against Rs. 1,83,502 in the previous year. It is reported that the increase in the expenditure on country medicines (Rs. 19,873 as against Rs. 10,043 in 1918) was due to bills for two official years having been paid during the year under report. A recurrence of such irregularities should be avoided in future and arrangements made for the adjustment of the charges annually. Information as to whether the supplies on credit to other departments amounting to Rs. 15,665-12-0 have all been paid for should have been furnished in the report. The omission should be supplied in future.

13. *Unani Dispensaries and Vaidyashalas.*—The total number of patients treated in the several Unani Dispensaries and the Hindu Vaidyashalas in the State was 404,588.

14. *Expenditure.*—The total expenditure in the department amounted to Rs. 7,66,021 as against Rs. 6,37,152 in the year 1918, the increase of Rs. 79,599 being due to promotions earned by the staff according to the revised scale of establishment of certain institutions and Rs. 3,6431 on account of increase under diet and miscellaneous charges due to higher rates of the accepted tenders for the supply of the articles of diet, etc., to several institutions as compared with the rates of previous year. The total amount of fees collected from patients liable to pay for treatment in the medical institutions in the Bangalore and Mysore Cities was Rs. 11,146 against 13,224 in 1918.

15. *General.*—Government are pleased to note that the inspection work done during the year was satisfactory; all the medical institutions except only a few are reported to have been inspected by the District Medical Officers concerned and so many as 85 hospitals and dispensaries were inspected by the

The formation of a class in the Government Medical School, Bangalore, for training candidates in the art of compounding was sanctioned, the scale of pay of compounders was improved and rules were prescribed during the year for regulating the training, employment and promotion of compounders in the State.

S.O. **Responsibility of the Amildars.**

No. G. 9750-2 / San. 42-20-1

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,

Dated, Bangalore, 19th November 1920.

OFFICIAL MEMORANDUM

Government have reason to believe that some misapprehension exists in certain quarters as to the exact position of the Amildar in respect of the work relating to Malnad Improvement. When the scheme was first sanctioned by Government over six years ago, a separate agency was organised to carry out the Malnad Improvement Work. This agency was no doubt able to turn out some appreciable amount of work but, at the same time, it had the effect also of alienating the sympathy of the ordinary Revenue Agency which, under the prevailing system of administration, is accustomed to do all the improvement work itself whether it be in the matter of public health or of improving the material well-being and prosperity of the people. The Amildar stood aloof and so did the Sub-Division Officer. The changes made in Government Order No. G. 15401-5—San. 96-18-2, dated 8th January 1920, in abolishing the post of Special Revenue Officer and entrusting the task to the Sub-Division Officers are steps in the right direction of interesting the existing local staff and making them responsible for this work of improvement.

2. Thus, while the duties and responsibilities of Sub-Division Officers in respect of Malnad Improvement Work have been fairly well defined recently, no definite orders have been passed so far, in regard to the exact position of the Amildar in respect of such work, although in some of the orders passed a few years ago, the need for interesting the Amildar in this important work of Malnad Improvement was emphasized and the duty of inspecting Malnad Improvement Works costing Rs. 500 and less was enjoined on the Amildar concerned.

3. Government therefore consider it necessary to issue clear instructions to remove misapprehensions as to the responsibility of the Amildar in regard to the working of the Malnad Improvement Scheme in the respective taluks and are accordingly pleased to direct that the Amildar should not be divested of his responsibility in respect of the Malnad Improvement Works in his taluk and that he should work under the Sub-Division Officers in regard to this important work just as he does in other matters. The Deputy Commissioners are requested to impress on all Amildars of the Malnad taluks, their responsibility in the matter of carrying out improvements under the Malnad Improvement Scheme in their taluks. They should also be made to understand that their efficiency as Amildars will be gauged by Government as much by the results shown by them in this direction as by the zeal and earnestness evinced in connection with the other duties pertaining to their office as the heads of the taluks.

By Order,

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Correspondence ending with letter No. A.A., dated 24th July 1920, from the Honorary Secretary, Sir K. Seshadri Iyer Memorial Fund, communicating the final offer of the Memorial Committee to transfer to Government management the Memorial Fund and property (Hall) under Section 3 (3) of the Mysore Muzrai Regulation.

Order No. G. 9179-82—G.M. 209-17-9, dated 8th November 1920.

On the demise of the late Rajya Dhurandhara Sir K. Seshadri Iyer, K.C.I.E., an influential committee was formed on 17th September 1902 to concert measures for perpetuating his memory in a fitting manner. In pursuance of the resolution passed at a public meeting called for the purpose in August 1903, funds were collected and a Memorial Hall was constructed in the Cubbon Park at Bangalore and a statue of Sir K. Seshadri Iyer was also erected in front of the Hall. The unveiling of the statue by His Excellency Lord Hardinge, late Viceroy of India, on the 20th November 1913, marked the practical conclusion of the labours of the committee who had only to arrange for the location of a suitable library in the Memorial Hall.

2. When Government who had rented the Hall in connection with the Sloyd Classes and the Educational Museum located, at the request of the committee, the Bangalore Public Library in the Hall, the committee deemed their work completed and offered to close their operations by transferring the management of the Hall and the fund (balance) to Government or to a Trust Board.

3. After a discussion of all aspects of the question, it was decided that the transfer in order that it might be on a proper legal basis should be effected as in the case of a charitable endowment under Section 3 of the Mysore Muzrai Regulation and the committee have agreed to effect such a transfer under the following conditions :—

(*a*) The Memorial Hall to be always used for public purposes and the Bangalore Public Library to continue to be permanently housed therein with the consent of Government.

(*b*) The Cash balance on hand, *viz.*, about Rs. 12,000 to be handed over to Government for being utilised, along with the arrears of rents from 1st July 1917 to 30th September 1920 due from Government at Rs. 250 per mensem, partly on the construction of certain necessary out-houses and chiefly on the addition to the Public Library of a section in Sir K. Seshadri Iyer's name consisting of books on History, Economics and Politics, this latter being one of the chief forms the memorial was intended to take.

No. G. 9179-82—G. M. 209-17-9, DATED 8TH NOVEMBER 1920.

(*c*) The Bangalore Club which is located in the building to vacate as per notice issued to them by about the 30th September 1920.

(*d*) The future management and control of the property to vest in Government if this should commend itself to them and in case Government should decide upon appointing a fresh committee of management such committee to be composed of two persons nominated by the existing committee and three others by Government.

(*e*) The existing committee to be *functus officio* from the date from which effect is given to the above arrangement (1st October 1920).

4. The Government of His Highness the Maharaja accept the offer of transfer on the terms proposed and are pleased to take over management of the fund and property relating to the Seshadri Memorial Hall, under Section 3 of the Mysore Muzrai Regulation.

5. Separate orders will issue regarding other details consequential on the above transfer.

Rules for the Occupation of the New Travellers' Bungalow at Mysore.

Government Order No. G. 41-91—G.M. 9-19-4, dated Camp Mysore, 28th September 1920, amending Rule (2) of Appendix II to the Government Order No. G. 4604-54—G. M. 314-17-1, dated 3rd October 1917, issuing rules for the occupation of the new travellers' bungalow at Mysore.

Order No. G. 9965-10025—G. M. 114-20-2, dated 22nd November 1920.

Government have reason to believe that the fee of Rs. 3 per diem now levied for the occupation of a suite of rooms in the new travellers' bungalow at Mysore is somewhat heavy, especially in the case of Government officers, Indian or European and they are therefore pleased to order that the fee be reduced from Rs. 3 to Rs. 2 per diem in the case of such officers.

Rule (2) of Appendix II of the Government Order read above will accordingly be amended so as to read as follows :—

" The fee for each person occupying a suite of rooms in the building shall be Rs. 2 per diem in the case of Government officers whether Indian or European and Rs. 3 per diem in the case of others, whether it is occupied for a whole day of 24 hours or fraction thereof. Two or more persons (whether married couples or not) occupying the same suite of rooms will pay half as much again as the full fee. Fees at the same rate will be levied for every additional occupancy of 24 hours or a fraction thereof."

Administration Report of the Gardens Department.

No. G. 10656-7—G. M. 78-20-5, DATED 30TH NOVEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 702, dated 6th October 1920, from the Superintendent, Government Gardens, forwarding the Administration Reports of the Gardens Department including Hill Stations for the year 1919-20.

Order No. G 10656-7—G. M 78-20-5, dated 30th November 1920.

Recorded.

2. There has been considerable delay in the submission of the reports of the Gardens Department which should be avoided in future.

3. The Public Gardens and Hill Stations continued to be in charge of the Assistant Superintendent, Government Gardens, and the Curator, Hill Stations, respectively, under the control of the Chief Secretary to Government, till the 26th December 1919 when Mr. G. H. Krumbiegel took charge of both the offices.

4. *Economic and Experimental work.*—Though the general work in connection with the maintenance of gardens was carried on in a satisfactory manner, yet economic work such as the care of newly introduced plants, nursery work and experimental work did not receive much attention untill Mr. Krumbiegel resumed charge of the Department. Special efforts were made by him however during the latter part of the year to resuscitate this important section of the work by sending requisitions to all important Botanical Institutions for plants to replace those that were lost; by putting the nurseries as well as the seed testing and fumigating houses into proper working order again; by putting the propagating house, the glazed frames and glass covered plant shelters in thorough repairs and filling them again with young stock and by restocking the ornamental and botanical collections and filling the beds and newly built open frames with fruit trees.

5. *The Seed Depot.*—The sale proceeds during the year were Rs. 5,655-9-9 against Rs. 6,732-1-1 of the previous year. The stocking of imported seed was made difficult during the war but regular supplies have since been arranged for and with the improvements to the nursery, the demands of the public are being more fully complied with.

6. *Fruit cultivation.*—This received renewed attention. The laying out of a trial orchard and fruit nurseries are under the consideration of the Department. As usual, many plants were imported and propagated. the chief among them being a hybrid between the custard apple (Sitaphal) and the Cherimoyer. The Butter fruit imported from Hawaii fruited for the first time and is a great improvement on the common seedling variety found in India

7. *Horticultural School.*—The fourth batch of students passed out in October last and no fresh students were taken on as the school was ordered to be closed. There were 7 students for the Mali Classes, of whom 4 completed the course, 1 left it and the other 2 continue in the present batch as they came late for training. Though there is demand for Malis, the school does not seem to be as well attended as it ought to be, owing probably. to the fact that boys of the Thigalar class from the districts for whom the school is mainly intended are averse to leaving their houses and coming all the way to Bangalore to join the school.

8. *Lal-Bagh.*—This garden maintained its popularity as in previous years, the daily attendance of visitors being on the increase. Though the rainfall was much below the average. it is satisfactory to note that the garden was kept in proper condition.

9. *Horticultural Shows.*—As usual, the Summer and the Winter Horticultural shows were held on the 1st Saturday in the months of August and February at an

interval of six months. The quality and quantity of the exhibits were up to the average. The gate collections amounted to Rs. 2,299-8-0, while the expenditure came to Rs. 2,813-12-6. These half-yearly shows are becoming more and more popular every year as can be judged by the increasing attendance of the public.

10. *Improvements.*—Several improvements were carried on during the year including the repairing and maintaining of the roads and paths. The seed testing room which was out of use for the past five years, was rebuilt with glass roof and wirenet frame over it. The cistern which was at the main gate was removed and in its place two round ornamental masonry Flower Beds were put up on either side, thus affording room for traffic and also a fine central view of the garden. The work of improving and extending the ornamental terrace which had been under correspondence for a long time was completed during the year. It forms a substantial improvement and the new cistern in front with its rockery and water display enhances the beauty of the scene.

11. *Zoological Collection.*—Additions have been made in this section either by purchase, donations, exchange or births in the Menagerie The purchases were two lions from Bhavanagar, two monkeys and one ant-eater Among births may be mentioned a litter of four lion cubs in the Menagerie.

12. *The Cubbon Park.*—This has also become very popular in recent years and is resorted to by the public to a large extent. It is maintained in good order and several improvements were effected during the year to add to the convenience of visitors and to improve the general scenic effect. The Band Stand in the middle of the Park has become a centre of attraction and is resorted to on Band evenings by a large concourse of visitors of all nationalities. The King Edward Statue was installed during the year and was unveiled by His Excellency the Viceroy and Governor General of India. The work of maintenance and special repairs to roads in the Park was transferred from the Public Works to the Gardens Department during the year. The establishment of the Park was revised during the year and a whole-time Overseer was appointed.

13. *Gardens at Mysore and Seringapatam.*—The Parks and Gardens at Mysore City and Seringapatam were satisfactorily maintained during the year.

14. *Sunkal Tank Farm.*—Though there was a sufficient fall of rain yet for want of sewage distribution, the Farm suffered to a little extent. The distribution channels were repaired during the year. The total income was Rs. 4,754-13-0 and expenditure amounted to Rs. 8,707-10-10 out of which Rs. 2,513-11-7 were spent on improvements. Government note with satisfaction that the income of the Farm has doubled itself when compared with the previous year's realisations. They trust that, before long, the income will be further increased so as to make the farm self-supporting.

15. *Expenditure.* The total expenditure on the Gardens Department during the year amounted to Rs. 1,30,906-12-6 against Rs. 67,218-3-4 for 1918-19 of which Rs. 68,013-9-0 was for improvements and Rs. 62,893-3-6 for establishment. The total receipts under all heads were Rs. 13,238-11-4 so that the net expenditure over the department was Rs. 1,17,668-1-2.

16 *Hill Stations.*—The Nandi Hill Station continued to grow in popularity. Owing to the prevalence of plague and cholera and the reduction of Military strength in Bangalore the number of visitors showed a slight decrease from 872 during the last year to 826. The income under all heads amounted to Rs. 3,084-2-5 against Rs. 3,923-2-3, in the previous year, while the expenditure was Rs. 15,176-6-7.

The other Hill Stations could not be improved on account of financial stringency.

Chokkanna, Senior Assistant Commissioner, (now retired) to represent the Mysore Government at a joint enquiry for the settlement of the boundary between certain villages of the Molakalmuru Taluk and the Bellary District.

2. Letter No. C. 1416, dated 7th January 1918, from the Revenue Commissioner in Mysore, forwarding with his opinion, the report (printed as an accompaniment) of the joint inspection referred to in the order read above.

3. Correspondence ending with letter No 6237, dated 21st July 1920, from the First Assistant to the Hon'ble the Resident in Mysore, forwarding a copy of letter No. 341—E 20-2, dated the 3rd idem from the Government of Madras furnishing their views in the matter.

Order No. R. 5963-4—L. S. 47-17-14, dated 18th November 1920.

Eighty-five discrepancies involving 225 cases were investigated during the joint enquiry. The Commissioners have come to definite agreement in regard to 217 cases, whereby 112 cases of encroachments and 2 of unmapped plots, measuring about 287 and 1½ acres respectively are to be included in Mysore Territory while 103 unmapped plots are to be included in British Territory. These findings are approved.

2. In regard to the 3 cases referred to in Sketches XXIX, XXXIII and XXXVIII further investigation by professional agency is considered necessary about which action will be taken separately.

3. In regard to the remaining 5 cases noted on the margin the Commissioners have not been able to arrive at any agreement.

Plots A & B in Sketch XXXI,
Plot A in sketch XXXVI & an area of about 110 acres in Sketch 11.

4. The Revenue Commissioner in Mysore and the Survey Superintendent in Mysore, who were both consulted in the matter are of the opinion that the 5 plots referred to above should be regarded as forming part of British Territory, as they have not been included in the prior Mysore Survey. Government agree with these officers and direct that the said 5 plots be made over to the British Authorities and the village maps and accounts be corrected accordingly if necessary.

No. R.5963-4—L.S.-47-17-14, dated 18th November 1920.

JOINT REPORT.

Government Orders, Mysore, No. R. 8985-8—L. S. 53-14-6, dated 26th February 1917 and Madras, No. 194 R., dated 23rd January 1917, placed us on deputation to investigate the discrepancies on the frontier between the Mysore Taluk of Molakalmuru, Chitaldrug District and the British Taluks of Rayadrug, Bellary, Hospet and Kudligi, Bellary District.

The question referred to us disclosed 85 cases of discrepancies in 37 villages of the Mysore Taluk. Portions of this frontier had already been disposed of previously and the boundary concerned had been correctly laid out on the ground. These have been left out of our investigations. A few obvious discrepancies in the vicinity of our field of operations were also investigated by us and find a place in our memos. We commenced operations on the 6th of May 1917 and finished the field work by the 28th of July.

A portion of the frontier had previously been investigated by the District Surveyor of the Chitaldrug District and the Land Records Inspectors of the adjoining British Taluks. Our work consisted in verification in the area of their previous work and taking measurements wherever possible of the various encroachments on Mysore Territory and gaps not previously included in the survey of either Government and the investigation of the frontier in the rest of the area for the first time.

The Mysore survey of 1870 has been scrupulously followed in our work and all variations on the ground determined with reference thereto. We have very rarely had to test the correctness of any landmark by measurements as per the survey records. Pahani stones on the ground in the midst of junction bandhs of survey numbers, or independently, to denote lands on the ground, have also been our guides in our work as it is to these points that measurements were taken in the Mysore Survey. We have set no stone by line (ಮೊಕ್ಕೆ) bandhs and those not on the true boundary will be shifted to co-ordinate with the same.

When we started work, the necessary changes in demarcation were either got done on the spot by shiftings of offset stones and the erasure of the parallel lines on the theodolite stations not on the true boundary, or necessary orders were given to the village officers of the British villages. Later at the instance of the Mysore Representative this work has been left to be carried out after the acceptance of our work by both the Governments.

The changes that will have to be effected later on include—

(i) Removal of field stones in encroachment areas and outside gaps.

(ii) Planting of fresh British field stones alongside Mysore marks wherever necessary.

(iii) Erasure of the parallel lines on all theodolite stations or rock marks not on the true boundary, including those specially mentioned in our joint memoranda.

(iv) Planting of Mysore marks alongside British marks in the case of *vankas* and other porambokes, the frontier boundaries of which cannot be demarcated.

Where the discrepancy was too slight to be included in our calculations we have done nothing but would recommend that the offending British stone be shifted either to the vicinity of the nearest Mysore stone or, where this may not be possible onaccount of the British stone being a junction point of 2 or more survey numbers, that it should be planted on the true boundary line. As the British line will have to be visited again for the rectification of the points recommended by us, we have left this work also to be taken up on that occasion. This will tend to avoid all clashes of jurisdiction, Revenue, Judicial, etc, etc.

If the stone to be shifted is a theodolite station which cannot be removed without disturbing the traverse, the parallel lines on it will have to be erased and an offset stone on the same line planted on the true boundary.

The joint memoranda and sketches submitted herewith explain all the points investigated by us. Many of the latter have not been drawn to scale as in that case it would not be possible to exhibit small discrepancies clearly.

No. R. 5963-4—L.S. 47-17-14, dated 18th November 1920.

We have had no difference of opinion except in 8 cases separately reported for the orders of Government.

We have left the boundary between Bandravi and Rajapuram in Sketch No. XXV to be cleared by the Surveyor following us and determine the deviations therefrom of the present British traverse line. This we did on account of the nature of the country and the thick overgrowth of prickly pear and the time it would have taken us to clear all this. A reference to our joint memo will clearly indicate how the boundary runs in this area.

Again in the case of Obalapura, we could not reconcile the present detailed survey with the old "Gol Mozani" map of 1870 and as the former was modelled after the British survey, we have recommended the acceptance of this latter as in this area the British survey will be the first survey in detail. If this is approved, nothing more has to be done but to correct the small deviations of the Obalapur detailed survey boundary and make it fit in with the British survey.

In the joint memoranda (1) Roman figures in red indicate encroachments by the Madras survey on the Mysore Territory: (2) Capital letters in red signify country unmapped at either Survey herein called gaps; and (3) Survey numbers detailed in the description of the boundary refer to Mysore numbers.

Correspondence ending with letter No. C. 3824 of 19-20, dated 5th October 1920, from the Inspector-General of Education in Mysore, regarding the insertion of an additional clause in the form of declaration in Appendix L of the Mysore Educational Grant-in-aid Rules in respect of furniture, etc., grants.

Order No. 4556—Edn. 49-19-17, dated 17th November 1920.

The Inspector-General of Education has brought to the notice of Government that while managers of aided institutions drawing building grants are required to execute an agreement embodying the conditions subject to which grants are given there is no provision at present to enforce the same condition on managers who draw large sums as furniture, library and equipment grants and has accordingly proposed that suitable agreements should be taken from these latter also

Government consider that no formal agreement is necessary, as grants are made under definite rules and that it would be enough if a suitable additional clause is added to the form of declaration in Appendix L of the Grant-in-aid Rules entitling the Government to the refund of the amount of grant in case the institution should cease to exist. They are accordingly pleased to direct that the following be added as clause (*a*) in the form of declaration in Appendix L of the Grant-in-aid Rules:—

"(*a*) I further bind myself that, in case the institution ceases to work at any time before the expiration of 10 years, I shall either sell the articles to Government at a reasonable valuation made by the Departmental Officers minus the grant given or refund the grant sanctioned for the purpose before the articles are disposed of."

Government Proceedings No. 2336-39—M. T. 33-02, dated 3rd November 1906, sanctioning a contribution of Rs. 1, 000 from the State Grant allotment of 1906-07 towards the renovation of the temple of Sri Mallikarjunaswami in Basavangudi Extension, Bangalore.

(2) Petition dated the 16th March 1916, from the residents of the Basavangudi Extension, praying for a further grant of Rs. 1,000 to complete the construction of the temple building for a grant of Rs. 250 for installing the deities and a monthly cash grant of Rs. 20 for the regular conduct of worship in the temple.

(3) Petition dated the 18th July 1918, from Chappalli Nanjunda Sastry, praying for a monthly grant from Government for the up-keep of the Sri Ganapathi temple near the Bull Temple at Basavangudi.

(4) Letter No. H. C. 332-17-18, dated 22nd March 1920, from the Deputy Commissioner, Bangalore District, submitting a report on the above petitions.

Order No. 1595-8—Muz. 10-17-4, dated 6th November 1920.

The temples of Sri Mallikarjunaswami and Ganapathi in Basavangudi, Bangalore, are Muzrai institutions in the enjoyment of small extent of inam lands in the Bangalore Taluk. The temples which were insignificant ones prior to the formation of the extension have been renovated and services therein improved by public subscriptions. The present structure of Sri Mallikarjunaswami temple is reported to have cost Rs. 5,611-13-2 of which a sum of only Rs. 1,000 was contributed by Government in the order read above. The petitioners now represent that certain items of work estimated to cost Rs. 2,000 are still remaining to be urgently done and pray that an additional grant may be sanctioned from State Funds in addition to a sum of Rs. 250 towards the pratishta expenses of Siva Panchayatana idols and a recurring grant of Rs. 20 a month for the performance of regular worship in the temple as the income derived from the inam lands is obviously negligible.

2. In view of the situation of these temples in one of the most important extensions of Bangalore City and also of the fact that they serve the spiritual needs of a large section of the public, the Deputy Commissioner recommends that a grant of Rs. 10 to the Sri Mallikarjunaswami temple and Rs. 5 to the Sri Ganapathi temple may be sanctioned from State funds or any other source at the disposal of Government in addition to a building grant of Rs. 1,000 for completing the remaining work, the expenses connected with the pratishta ceremonies being left to the initiative of the public.

3. Under these circumstances, Government are pleased to sanction for a period of five years in the first instance a sum of (i) Rs. 10 per mensem out of the recurring annual surplus of the Sri Chandramouleswaraswami temple at Siddaligapura; Mysore Taluk, to the Sri Mallikarjunaswami temples and (ii) Rs. 5 to the Ganapathi temple from the annual recurring surplus of the Sri Mancnmaneswaraswami temple on Mysore-Nanjangud road, Mysore Taluk.

4. The temple of Ganapathi will be treated as subsidiary to that of Sri Mallikarjunaswami and the two temples treated as a single minor institution as their income exceed Rs. 100 a month. The Muzrai Superintendent will in consultation with the Deputy Commissioner and the Dharmadarsis draw up a regular scale of expenditure in the temples.

No. 1595-8—Muz. 10-17-4, dated 6th November 1920.

5. A contribution of Rs. 1,000 is also sanctioned from the State Grant allotment of the current year, the balance required to complete the remaining items of work being found by the devotees by subscriptions. Regular estimates with plans should be prepared and submitted for Government sanction before the contribution is operated upon.

6. The expenditure connected with the pratishta ceremonies is a matter for private enterprise and no contribution can therefore be sanctioned from State Funds.

Note No. R. C. 1382, dated 23rd August 1920, from the Muzrai Superintendent in Mysore, submitting for sanction, proposals for the revision of the scale of income and expenditure in the Sri Ranganathaswami temple at Sorab and stating that they were drawn up by Mr. G. Aravamudu Iyengar, lately Muzrai Superintendent in Mysore and Secretary to Government, Muzrai Department, after a personal inspection and enquiry and in consultation with the local officers and that the Deputy Commissioner of the Shimoga District who was also consulted in the matter has stated that the scale is suitable and may be adopted.

MEMORANDUM.

Sri Ranganathaswami temple at Sorab is a Muzrai Institution in receipt of a Malnad Cash Grant of Rs. 215-14-0 a year.

The following Inam lands are also endowed to it:—

Kind	Extent	Assessment
	A. G.	Rs. a. p.
Dry	4 10	0 12 0
Wet	33 5	121 4 0
Garden	1 22	6 0 0

The temple is also in possession of extensive kandayam lands which seem to have been in the enjoyment of third parties, only a nominal income being derived for the benefit of the temple. The question of taking over the lands under the control of the temple authorities and releasing them to the best advantage of the institution has been the subject of protracted correspondence and the Sub-Division Officer of Sagar promised an early disposal of the matter when the undersigned was at Sorab in October last.

The temple gets an annual income of Rs. 256 from all sources and 282 *chitni kandies* of paddy from the Inam and kandayam lands. Though the total income falls a little short of Rs. 1,000 yet the Institution may be classed as a Major one in view of its antiquity and situation at the Taluk Head-quarters.

The scale which is in force now was fixed in 1876, and no revision has been made in recent years. As there is very little scope for a revision even now, a Government Order affirming the present scale is at least necessary for audit purposes.

The scale in force now has therefore been adopted *in toto* with the undermentioned modifications:—

The Inam and kandayam lands are being managed by the Shanbhog and no particulars as regards the Gutta derived and disbursements made could be had in the Taluk Office. If any paddy should remain at the end of the year after meeting the normal and extraordinary expenditure of the temple, the sale proceeds of such balance are being credited to temple funds.

In view to systematise the temple affairs and maintain correct accounts, a Parpathegar with a small allowance in kind has been provided for. A contingent grant of Rs. 3 per annum has also been provided for meeting the sundry expenses of the temple.

The cost of oil has been raised by Rs. 6 on the representation of the Dharmadarsis.

These proposals leave a balance of about Rs. 20 and 22 kandies of paddy which is hardly sufficient for the repairs, etc., of this big temple. Ways and means to improve the temple resources have to be found out.

The disbursements to the temple servants should be made by the Taluk authorities direct instead of payments being made through the Shanbhog as is the practice now.

The following gentlemen may be appointed Dharmadarsis:—

Mr. Kesava Rao.
Mr. Nadig Lakshmana Rao.
Mr. H. Bhaskar Rao.
Mr. Nadig Lingappa.
Mr. Inamdar Ayyappa Jois.

No. 1734-6—Muz. 112-20-2, dated 18th November 1920.

The temple had a minus balance of Rs. 149-13-4 against an invested surplus of Rs. 346-3-0, on 30th June 1918.

Order No. 1734-6—Muz. 112-20-2, dated 18th November 1920.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

2. Early steps should be taken in the matter of leasing the Inam lands of the temple to its best advantage with a view to improve its resources.

3. A separate Notification will issue in the matter of the appointment of Dharmadarsis to the institution.

Government Order No. 3113-4—106, dated 25th July 1889, sanctioning the alienation of a portion of Survey No. 9 of Paramenahalli village, Tarikere Taluk, in favour of Shanbhog Narasappa, for building a chattram and also the remission of assessment thereon.

(2) Government Order No. 5059-61—R. F. 30-95, dated 2nd December 1895, sanctioning the grant as jodi inam under para 2 of Appendix G to the Land Revenue Rules, of certain arable waste lands in the villages of Paramenahalli and Hirekatur, Tarikere Taluk, for the up-keep of the chattram.

(3) Government Order No. 3805-7, dated 31st March 1903, directing the resumption of the chattram building and the lands endowed thereto.

(4) Government Order No. 1207-10, dated 25th August 1910, directing that the chattram building and the lands attached thereto with the exception of Survey No. 24 of Paramenahalli village which had been already disposed of under the Darkhast Rules, be made over to the Sri Akshobhya Tirtha Swami Matt at Kudli, Shimoga Taluk, subject to the condition that the building is put into a proper state of repair and kept available for occupation by travellers, and

(5) Correspondence ending with letter No. O. C. 138, dated 30th August 1920, from the Deputy Commissioner, Kadur District, reporting that the Matt has done nothing to keep the building in repair or in a state fit for occupation by travellers, and recommending that the chattram building and the lands attached thereto may be resumed.

Order No. 1768-9—Muz. 285-17-13, dated 19th November 1920.

Under Government Order dated 25th July 1889, read above, a portion of Survey No. 9 of Paramenahalli village, Tarikere Taluk, was alienated in favour of Shanbhog Narasappa for the construction of a chattram thereon at his own cost. A chattram was accordingly built by the said Narasappa in 1893, on the Shimoga-Tarikere high road. Subsequently on his application, Government in Proceedings No. of 2nd December 1895, read above, sanctioned the grant as jodi inam, under para 2 of Appendix G of Land Revenue Rules, of the lands noted below which were then waste for the up-keep of the chattram, the excess of Rs. 2 over the fixed inam limit of Rs. 90 being levied as jodi in addition to Shraya rates.

2. After the death of Narasappa, his son Venkatagiriappa expressed his inability to act up to the conditions under which the lands had been granted. Thereupon, Government in their Order dated 31st March 1903 read above, directed that the lands as well as the chattram building be resumed. In consequence of this order, Venkatagiriappa relinquished the jodi lands attached to the chattram; the relinquishment was accepted in 1904-05, and one of the lands, *viz.*, Survey No. 24 of Paramenahalli village was disposed of under the Darkhast Rules.

No. 1768-9—Muz. 287-17-13, dated 19th November 1920.

3. On 1st July 1909, the Agent of Sri Akshobhya Tirtha Swami Matt petitioned the Government stating that the Matt owned extensive lands in Paramenahalli village and was anxious that the charity founded by Narasappa should be kept up, and requesting, therefore, that the chattram building and the lands endowed thereto might be made over to the Matt. Government taking a favourable view of this request, passed the order dated 25th August 1910, read above, directing that the chattram building and the lands attached thereto, with the exception of Survey No. 24, which had already been disposed of under the Darkhast Rules, be made over to Sri Akshobhya Tirtha Swami Matt, subject to the condition that the building be put into a proper state of repair and kept available for occupation by travellers.

4. In December 1919, the Deputy Commissioner reported that the chattram which is situated at a distance of 2½ miles from Tarikere on the road to Shimoga, had ceased to be of any use to travellers since the opening of the Railway from Birur to Shimoga and of the tram line from Tarikere to Narasimharajapura, that no attempt whatever seemed to have been made by the Matt to keep the building in repair or to bring under cultivation the lands granted as inam thereto since the institution was handed over to the Matt; and proposed that the lands might be resumed and made available for disposal under the Darkhast Rules. But as the Matt Agent stated that the Swami was willing to put the building in a state of repair so as to render it useful to travellers, the Deputy Commissioner was asked to give him six months' time and to inform him at the same time that if the chattram was not so repaired and put in proper condition for the use of travellers, the inam lands would be resumed and the chattram building disposed of by Government in such manner as they might consider proper.

5. The Deputy Commissioner now reports that though the order of the Government was duly communicated to the Matt, no work has been done, that it is useless to expect the Matt to carry out the repairs needed to the building which will involve a heavy outlay and that the Agent only wished to keep the Inam lands without the least intention of carrying out the condition under which they were made over to the Matt. In these circumstances, the Deputy Commissioner again proposes that the building and the lands in question might be resumed to Government.

6. It is clear that there has been persistent neglect on the part of the Matt in the matter of keeping the chattram in good repair and rendering it useful to travellers. The Matt having thus failed to act up to the conditions under which the building and the inam lands endowed thereto, were made over to its management in 1910, Government direct that both the building and the lands be at once resumed.

7. The Deputy Commissioner will dispose of the chattram building by public auction and report the result for the information and further orders of Government in regard to the utilization of the proceeds.

8. The jodi tenure of the lands will be cancelled and the lands disposed of for cultivation under the Darkhast Rules.

Government Order No. R. S. 3531-34—Ry. F. 20 (O. L.)-17-18, dated the 9th May 1918 laying down rules for regulating travelling allowances of the officers of the Railway Department.

2. Letter No. E. A. 1211, dated 15th November 1919, from the Auditor, Mysore Railways, pointing out that in consequence of the increase in the open line mileage, the rules referred to in the above Government Order require revision.

3. Railway Secretary's Note No. 1532, dated 7th August 1920, regarding the allotment of the saloons and Inspection Coaches among the officers of the Railway Department.

Order No. 1178-80—Ry. F. 20 (O. L.)-20-21, dated 13th November 1920.

The order referred to in the preamble provides that the case of the officers allowed travelling allowance under the ordinary rules is liable to reconsideration when the length of the open line is increased and the programme of construction work is appreciably reduced for any reason. Since then the length of open lines has been increased by 141 miles by the resumption of the Branch lines from 1st October 1919 while the length of the lines under construction remains the same. Government are therefore pleased to issue the following instructions in the matter:—

In the case of open line officers, the open line travelling allowance rules will apply.

In the case of officers purely engaged on construction work, the general rules of travelling allowance will apply.

In the case of Mr. Bury, the general rules of travelling allowance will apply during the term of his present contract and in renewing the agreement a clause will be inserted to regulate his travelling allowance by the open line rules.

In the case of the Agent who has jurisdiction over both open lines and construction, he will be given conveyance or pass for the open lines plus daily allowance when absence exceeds 8 hours, and will draw mileage, etc., as admissible for journeys on construction lines.

These rules will have effect from 1st October 1920.

Read—

Correspondence ending with Railway Secretary's Note No. 1575, dated 3rd November 1920, submitting proposals of the Agent, Mysore Railways, requesting sanction for carrying out Open Line Capital Works on the Post-audit System and posting of an Accountant to the Open Line Executive Engineer's office for passing bills.

Order No. R. S. 1234-37—Ry. F. 299 G-20-21, dated 18th November 1920.

The proposed Capital Works at Mysore are nearly all buildings that do not require Engineers with special knowledge of Railway working and if bills are made out punctually and correctly, as they should be, there should be no delay in audit. If it is found in practice that the audit is unduly critical and delays payment for petty and unimportant objections, the matter will be taken up on specific cases being brought to the notice of Government.

2. Post-audit will mean the careless preparation of bills and endless objections after payment has been made, and will lead to trouble when it is found that contractors have been over-paid. Government therefore direct that Open Line Capital Works should be carried out on the Pre-audit system.

READ—

Letter No. T. 275—20, dated 6th November 1920, from the Agent, Mysore Railways, forwarding Late Train Statements for the fortnights ending 18th September and 2nd October 1920.

Order No. R. S. 1282-83—Ry. F. 80(O. L.)-20-21, dated 20th November 1920.

At present only trains arriving at destination more than 30 minutes late are reported. Government direct that in future all passenger and mixed trains that arrive at destination more than 15 minutes late should be included in the fortnightly reports submitted to them. In the "remarks" column of the reports, reasons for the late arrival of trains should be clearly explained.

2. Government observe that on the 25th September 1920, the Auditor, Mysore Railways, detained No. 4 Down for 47 minutes at Paschamavahini Station to check tickets. Such long delays to passenger and mixed trains are undesirable and should be avoided as much as possible.
